Concrete gives taxpayers
riding quality that lasts...
the National Road Test
confirms a gift

Out of the recent 27-million dollar National Road Test comes significant new information on the performance of concrete and asphalt pavements.

Sponsored by the American Association of State Highway Officials, this road test was the most scientific ever conducted. Side by side on 5 loops near Ottawa, Illinois, concrete and asphalt test sections carried the same truck traffic for two years. Each loop carried light, medium or heavy vehicles.

To determine how well test pavements kept their riding quality, a special rating system called the serviceability index was used. Pavement surfaces were rated on a scale

Miami Herald Writer
Extols Grayling's Hospitality

Miami, Florida Herald columnist Mike Morgan stopped in Grayling during the past season and the following column appeared in that Florida newspaper recently. It should be of interest to local people and a revelation of what hospitality to visitors can bring.

It was just outside of Grayling, Mich., that Euripides, our faithful four-cylinder hieing machine, became something less than faithful and developed a multiple fracture of the upper diaphragm and severe contusions and abrasions of the generator.

And right now I must advise one and all, "that if you ever travel in these parts the place to develop car trouble is in Grayling. Here you will be treated with a courtesy and kindness which makes you almost happy if it happens."

Euripides was growling, whining and making disconcerting noises which would have gained him instant admission to the United Brotherhood of Bananas. We made it into Grayling and pulled into McEvers Motor Sales where Euripides hacked and demonstrated his ailments.

A mechanic diagnosed the case as a rupture of a generator bearing. "We can remove the generator, but I don't know about finding a spare part," he warned — a diagnosis which did not fill me with instant joy. I had visions of being delayed a couple of days while a part was being scouted.

While Euripides was being operated on, I purchased a copy of the Crawford County Avalanche, and learned we were in the "Archery Capital of the World."

Joe Hull, a very kind salesman at McEvers, explained Grayling was home of the famed Bear Archery plant.

Here 200 people are employed making fine bows and arrows, both hunting and target varieties. When I expressed interest in the plant, Joe took the child bride and

me over to the archery company and introduced me to Gerald Burns, who gave us a tour and told us something about the bow and arrow business.

Believe me, Hiawatha or any of the other advertised historical bow and arrow types, even Bill Tell, would have tossed their weapons away for the modern, factory made variety.

Incidentally, there are more people taking up this sport, for hunting or target shooting, than ever before. Probably more bows and arrows are in use today than when the redmen contended the palefaces for ownership of the real estate in the land.

A real handy Indian could turn out maybe three or four flint arrowheads a day working over a hot flint. I saw a fully automated, extremely intricate bit of equipment which performs 16 operations and turns out 3,500 hunting or "broadheads" daily. These heads are razor sharp, deadly, and will puncture grizzly bears and elephant hides if you have the proper bow and can use it.

Arrow shafts are made of a special cedar, Port Orford, which is light, strong, very straight-grained — and only this cedar. Shafts are also made of fibre glass, and tempered aluminium tube. The tempered aluminium are best because they give you perfect matching weight and balance. And cost \$30 a dozen.

Most of the bows are made of fibre glass with handles of zebra wood, brazilian rosewood, or other hard, expensive woods.

Most popular bow weight is 45 pounds but the factory has requests for bows of 100 pound pull; and even has made them of 120 pound pull.

You could tell a dinosaur with these. It was a fascinating tour. Only we, reluctant, I turned down an offer to go on a bear hunt later in the year, bow and arrow style — explaining the only thing that detained me was my natural cowardice — and who can kill a bear using a bow with a three-quarter pound draw!

Back at the garage we were invited to go on a canoe trip on the AuSable with Robert Hayes, Grayling Chamber of Commerce manager, but had to decline. I hope to do it another time, Bob.

Albert Rohde, whose prognosis of Euripides had been exact, had also effected a cure. When he could not find the needed part he made one. Euripides now marches along nobly.

Everyone was so kind it was, as noted before, a pleasure to have been forced to stop in Grayling. Next time I'll take the canoe trip.

But bear hunt with bow and arrow? Unh unh. Not even with machine gun.

Word has been received from Mr. and Mrs. A. J. Nelson and his sisters Magrethe and Olga, who are driving west; that they had been able to make about 500 miles a day, until they got to Browning, Montana, where they had been through a bad snow storm, as bad as any Michigan gets in January, so that they were able to get only 115 miles that day. The area is near the entrance to Glacier National Park, in the Rockies.

"The Superior Approach" . . .

The bitter fight over the Administration's medicare bill for providing medical benefits to everyone drawing social security payments, whether or not they needed or wanted them — obscured the solid achievements of the Kerr-Mills bill, enacted in 1960.

This bill provides for federal-state programs to aid elderly people who are actually needy so far as being able to pay for medical services is concerned. It places the administrative emphasis where it belongs — at the local level. It is designed to deal with the problem in the most effective and economical manner, and to do that in a way which will prevent bureaucratic domination of medical practice and a breakdown in the traditional doctor-patient relationship.

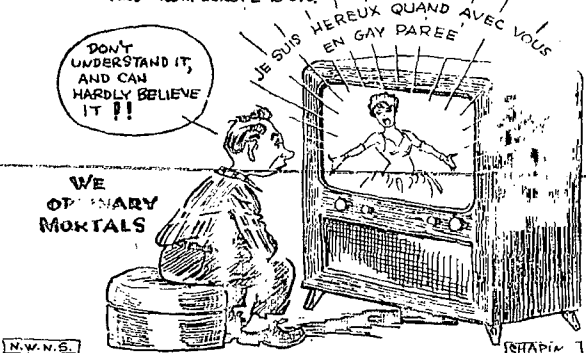

But the medicare supporters have given Kerr-Mills the deep-freeze treatment. So it's time to look at the record.

In the brief period of time since its enactment, 28 states and three territories have adopted the medical assistance for the aged provision it contains, and 24 of these are also using the expanded old age assistance benefits it offers. Fourteen other states, and the District of Columbia, are using old-age assistance benefits alone. Only eight of the 50 states are not yet using any provision of the law. It is obvious that the states are implementing it according to their particular needs.

No one claims that Kerr-Mills is perfect. It is ploughing new ground, and experience will tell where amendment and liberalization of its provisions are re-

MIRACULOUS MICROWAVES

1931: TELEVISION BEGAN BROADCASTING WITH ONLY 20 MILE RADIUS —

quired. But it has made a start — a big start — toward the solution of a vexing problem.

Too, happily, it is winning once-dubious adherents. For instance, the Charlotte, North Carolina, News, formerly favored the social security approach for aid to the elderly. Now it says that "Kerr-Mills may in the long run prove to be the superior approach." Kerr-Mills, at the very least, deserves a fair chance.

Mr. Maurer had formerly been connected with the Isabella Enterprise at Mt. Pleasant. He left Grayling in 1884 and has since that time been principally engaged in the insurance business. At the present time he is retired. He is an uncle of our fellow townsman, J. L. Martin, at whose home he was entertained in Grayling.

A lovely lunch was served by Mrs. McKay and the bride was showered with many lovely gifts which included a chest of silver.

Tough new '63 Chevrolet Trucks are here!

...THE ONES THAT WHIPPED THE BAJA RUN...TOUGHEST UNDER THE SUN... TO SHOW THE WORTH OF NEW ENGINES, FRAMES AND SUSPENSIONS!

Round trip from Detroit to the end of the Baja Peninsula is over 8,000 miles.

Millions of years ago nature fashioned a proving ground for trucks that man can never duplicate. Today it is known as the Baja (bah' hah) California Peninsula, Mexico.

These pictures give you only a bare idea of the place. The road is fine for 140 miles below the U.S. border. Then the beating begins. Rocks and hard-baked ruts bang, jab and jerk the trucks from stem to stern. Loose sand makes them struggle and strain. Dust chokes them. Heat roasts them. Rivers drench them.

The Baja Run took this Chevrolet truck caravan 17 days to go the 1,066 miles.

All the trucks performed magnificently. Not one was forced to drop out because of mechanical difficulty.

Trucks that can take this kind of beating can take on your toughest truck jobs. Come in now and see tough quality-built '63 Chevrolet trucks with all their new improvements.

QUALITY TRUCKS COST LESS

Sometimes the caravan crept along for hours in tow gear. It took 17 days to go 1,066 miles! This is the road near Loreto.

SUNDAY SERMON
Rev. ROBERT H. HARPER
BOOMERANG
YEARS ago, there was a deputy in the courthouse who prided himself that he knew taxpayers in the section, and he was somewhat befuddled when he did not recognize a big man who came in to pay his taxes. As he thumbed through the tax book, a happy artifice flashed across our friend's mind. "Dog gone it," he said, "I never could remember how to spell your name." "John," said the man, "Smith, John Smith."
So, like a boomerang, our friend's artifice returned, as it were, upon his own head. Surely it was bad enough if a public servant could not remember the name of John Smith.

JUST A THOUGHT:
Sometimes we must discover the hard way that the problem we solve by virtue of an untruth is not really resolved at all; it is simply set aside and will return to worry us again another day.
name of John Smith and how to spell it, it was worse for him to pretend to know a man when he did not know him.
It would have been better simply to have asked the man's name. Such was an unimportant thing, you may say, but you may remember that Jesus said, "Let your communication be Yea, Yea, Nay, Nay."
Well, I started off with the humorous predicament the deputy fell into and went to a moral preaching. Let us excuse the deputy if he will learn how to spell the name of John Smith.

Television Classes At Grayling High

In an effort to give Grayling Public School students the best education possible, the school has available television classes prepared at Central Michigan University at Mt. Pleasant were begun in the school system on Monday, September 10th. The first week was a trial and error period in which adjustments were made.

Four sets were in use with the possibility that four more would be needed because of the size of the classes and the small rooms available for the showings.

The schedule is as follows: Monday, 9 to 9:30 — science, grades 5 and 6, 9:30 to 10, arts and crafts, grades 3 and 4. Tuesday, 9:30 to 10, American Government, Grade 12. Wednesday, 9 to 9:30, science, grades 5 and 6, 9:30 to 10, American Government, Grade 12. Thursday, 9:30 to 10, arts and crafts, Grades 5 and 6, Friday, 9:30 to 10, American Government, Grade 12.

There is also a course in conservation of Michigan resources for Junior and Senior High students from 9 to 9:30 on Friday for which arrangements have not been made due to scheduling difficulties.

Parents, these programs are open circuit. You may view them in your own home at the scheduled times on WTV, Cadillac. This way you may see what is being offered.

The television sets with 23 inch screens have been purchased at a reduced price of \$168.00 each from Mosher Refrigeration, the General Electric representative in Grayling. This cost covers warranty, parts and service and G. E. well known for their philanthropy in the cause of education has authorized replacement of the sets, after a year's use, with new ones at the rate of \$25 per set.

The antenna system was installed by Corliss Stamply and includes an antenna on the roof, a 5 tube booster in the attic with a de-snowover preamplifier on the antenna. Shielded cable runs through the attic to the 9 rooms with special outlets for connections to the sets.

Letters To The Editor

West Point, N. Y.
Sept. 6, 1962

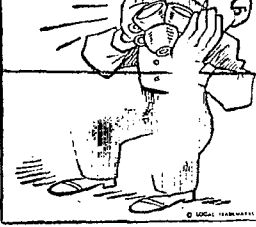

Dear Mr. Strong:
At last I've become a cadet, instead of a new cadet. Our presidential parade went off very smoothly. I am now in Company I-2.

Our first week of classes is almost over with, and from what I can tell now, I've found that our school is deficient in English, Math and, in general everything. Everyone I've talked to here, has had a better high school education than I have. Our school doesn't offer enough math courses, good enough English courses, and we need more and improved science courses.

should be mandatory at G. H. S. I am in trouble now, because I haven't had any language. I wish now that our school would have offered those additional things, because here one needs a very strong, basic education. The reason is, time is very limited, especially for a Plebe. I know for a fact that I'll be spending many nights in the halls, after taps, studying.

Sincerely,
Cadet Sherman Neal

Miss Linda L. Smock became the bride of Charles E. Mires, II, at a candlelight service at 7:30 in the evening at St. Francis Episcopal Church on Saturday, September 15th, the first marriage to be performed in the church. Linda is the daughter of Mr. and Mrs. Donald E. Smock, and Charles is the son of Mr. and Mrs. Nelson W. Mires of Pt. Huron. The Rev. Colin Campbell performed the double-ring ceremony in a setting of white glads and chrysanthemums.

The bride wore a floor-length gown of organza outlined with Chantilly lace and graced by a chapel train. Her pearl and crystal crown held an elbow-length veil. Her flowers were white orchids and chrysanthemums.

Attendants were her sister, Miss Cheryl Smock, maid of honor, and bridesmaids Mary Ann Engel of Bay City and Arlene Smith of Grand Rapids. They were escorted all alike in emerald green cocktail dresses with matching colored hats and veils. They carried bronze and yellow mums.

Darrel Ley of Drummond Island was best man. Seating 150 guests were ushers Douglas Mires, brother of the groom, and Mike Mulligan of Algonac.

The mother of the bride chose a beige dress with jersey top and brocade skirt. With it she wore black accessories. The groom's mother wore a beige suit, with matching accessories. Both mothers wore bronze and yellow mum corsages.

For the reception following, the Grayling Bowhunters Club was decorated with white wedding bells and mixed flowers, and green and white streamers. Assisting Mrs. Smock with her guests were Mrs. Bob Smock, who poured the coffee, Miss Nancy Robinson of Saginaw, who sat and served the tiered wedding cake, Miss Christine Schneider of Lansing, in charge of the punchbowl, and Misses Cheryl Smock and Jeanette Henig, who were in charge of the gift table.

Following a week's honeymoon at Niagara Falls, N. Y., the newlyweds will be at home at Clark Manor 6-A, G-3371 Van Slyke, Flint 7, Michigan. Mrs. Mires, a 1961 graduate of Grayling High School, is currently attending Flint Junior College, spent a year at Central Michigan University. Her husband graduated from Alma College in 1962 and has attended Pt. Huron J. C. He graduated from Pt. Huron High School in 1958.

Bits O' Talk

Mr. and Mrs. Ezra Sanders enjoyed a Sunday outing to Charlevoix, Central Lake, East Jordan and home.

The CC Club met Sunday night at the home of Mr. and Mrs. Rolla Failing. Various kinds of games were played, and the door prize was won by Mrs. Gene Papendick and Mrs. Mary Mikesell. Mrs. Papendick drove to Okemos Saturday to visit their daughter and family, the Richard Kleins, over Sunday. They stopped at Mr. Pleasant on the way down for a dinner and the other daughter and family, the Robert Strongs II.

Mr. and Mrs. Gene Papendick last week made a trip to Chapleau then across to Timmins through by Nipigon and the Lake Superior drive, taking a week's vacation to see the country.

Supervisors Miller, Freund, Murphy, Plagens, Roberts, Cline and Fowler and County Clerk Leo Lovely attended the 54th quarterly meeting of the Second District Association of Michigan Supervisors and County Clerks held at Charlevoix on Thursday, September 13th. The program was a general discussion of new legislation, and a state problem. In the afternoon the group visited the Consumers Power nuclear plant at Big Rock Point.

Tom Robertson and son Joe drove to Alma Friday, where Joe resumed his studies at Alma College for the year.

The Avalanche inquired of Consumer Power Company the cause of the local power stoppage which lasted 50 minutes Thursday, from 1:55 to 2:45 p. m., and learned that a lightning bolt hit the Higgins Lake substation causing considerable damage. Crewmen made temporary repairs which renewed service in 50 minutes, then worked half of Thursday night to make permanent repair of the damage. Phone service was blocked out during the same period of time.

Mrs. E. S. Hanson was hostess to the Mathilda Bauman Circle at her Lake Marquette home Friday, for a potluck luncheon at one o'clock. On Thursday Mrs. Hanson entertained about eighteen ladies of the Shepherd Woman's Club at a similar affair. Houseguests for the weekend of the 8th were Mrs. Ken Walker and son of Shepherd, and Mrs. Ruth Hutchings of Roseville.

Mr. and Mrs. Jesse Sales received word of the birth Monday, September 10th, of James William, 7lb. 3 oz. son born to their daughter and husband, Mr. and Mrs. Sam Lippard, at Kalamazoo hospital. Little James has two brothers, Steven and Bobbie. His paternal grandparents are Mr. and Mrs. Carl Amburst of Birmingham. Mr. Sales left Tuesday morning last week to stay with Steven and Bobbie while their mother is in the hospital.

The Earl Isenhauers, Sue and Gary visited their daughter Vi-vette, the Ivan Davis Jr. family in Harbor Springs on the 9th.

Mr. and Mrs. Lacey Stephan took their son, Leroy, Jr. to Marquette Sunday, the 9th, where he enrolled at Northern Michigan College. His address is 354 Flamingo, Grien Hall, N.M.C., Marquette, Michigan.

Bernard "Tug" Sargent, 81, of West Branch succumbed Sunday at the Toifree Memorial Hospital. He was an uncle of Herbert Wolff of Grayling. Services were held Wednesday at the Trinity Episcopal Church at West Branch.

JOHANNES - CARLSON
WED IN BAY CITY

The First Methodist Church of Bay City was the scene of the marriage of Miss Barbara Ann Johannes to Mr. Robert A. Carlson, son of Mr. and Mrs. Russell Carlson of Howell, on Saturday, September 15th. The bride is the daughter of Mr. and Mrs. John Johannes of Bay City. The Rev. Arthur B. Howard officiated at the wedding.

Appliques of Alencon lace and a cathedral train highlighted the bride's floor-length gown of silk organza. Her double crown of pearls and iridescent held a bouffant veil and she carried a white orchid surrounded with stephanotis.

Miss Carolyn Keeler was maid of honor in a gown of green organza over tulle. Identically groomed and carrying cascade arrangements of orange, yellow and bronze Fuji mums were the Misses Mary Ellen Guenther and Jacqueline Sheppard.

Bruce Carlson of Grayling was best man for his bride, assisted

by Craig Anderson and James Fair.

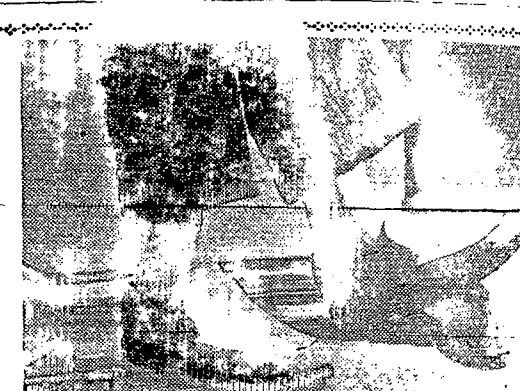

A reception was held afterwards in the church fellowship hall. Mr. and Mrs. Carlson will reside in Muskegon, Michigan.
